

Ancestral Wisdom and Power

Discovering the Shamanic Traditions of our Ancestors

The Ancestors hold luminous medicine bundles of ancient wisdom for us. They are knocking at our doors, streaming into our dreams, asking us to come, relight the fires, sit in circle with them, and dance the ancient dances of healing and renewal.

As our protectors, teachers and guardians, shamans know that the Ancestors are sources of great healing wisdom. They create a bridge to our future by giving us knowledge of the strands that make up our life's tapestry.

We are who we are largely because of the ancestors who came before us and left their traces inside us. Our blood and spiritual ancestors are often still influencing our lives because we came from them – even if we have yet to discover who they are.

In order to be fully present and live our destiny and desires, we need to understand our ancestors so we can have knowledge of the fibers that make us who we are.

We each have an enormous spiritual heritage we will access and embrace through deep shamanic practices in the Vosges Mountains of France. Ancestral knowledge is never completely lost. Everything that has ever been known is available and waiting for us in the worlds of spirits.

Ancestral shamanism involves shamanic tracking and reconnecting with biological, spiritual and animal ancestors. We will discover ancestral teachings of Mongolia, Europe, North America, Africa and the Mayan and view rare film footage of Mongolian shamans in sacred ceremony.
